LOGNOTE -- Chief, Operations Group, 28 December 1984

1. [] From the D/FBIS Staff Meeting 27 December:

25X1

- Hugh Montgomery has been replaced as D/INR by Morton Abramowitz, former ambassador to Thailand.

- Members of the Senate Select Committee on Intelligence will be held to an 8-year incumbency; hence three-quarters of the present members will be replaced.

- The Combined Federal Campaign hit 95 percent of its goal in the Agency, with a (dwindling) 37 percent participation rate.

25X1

- There is a move to extend the 9.6 percent overseas increment to salary to all serving overseas.

- An S&T history is being written; we may have to string along, designate a history writer.

- There will be a Deputy Directors meeting 7-8 January with the DCI to discuss the future of the Agency. D/FBIS needs ideas on this to pass along to the DD/S&T by Wednesday, 2 January.

- Scuttlebutt on the '86 Agency budget is that it will be above OMB's low, which is good news, and below the DCI's low guidance, which presumably is bad news. Our '86 initiatives may have a chance.

- To keep FBIS at highest possible T/O level, no rotations will be approved out of FBIS before April, when the various Offices' position strengths will be reviewed by DD/S&T.

- DD/S&T says don't bother even to make requests for waivers on hiring annuitants within the first year after retirement. All have been denied.
